## **DETAILED ACTION**

1. A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on February 2, 2007 has been entered. Claims 1, 21-22, 25, 30 and 34 are amended. Claims 3, 6-7, 9-11, 13-20 and 29 are deleted. Now, Claims 1-2, 4-5, 8, 12, 21-28 and 30-35 are pending.
  
2. It is noted that in the previous Office action (Paper No. 102806), Examiner inadvertently omits mentioning that upon further consideration, Examiner had decided to give an action on the merits for Claim 22.
  
3. Claim rejection(s) under 35 USC 112, second paragraph, in paragraph 4 of the previous Office Action (Paper No. 102806) is/are removed.
  
4. Claim rejection(s) under 35 USC 112, first paragraph, in paragraphs 6-7 of the previous Office Action (Paper No. 102806) is/are removed.

5. Claim rejection(s) under 35 USC 103 in the previous Office Action (Paper No. 120806) is/are removed.

***Allowable Subject Matter***

6. Claims 1-2, 4-5, 8, 12, 21-28 and 30-35 are allowed.

7. The following is an examiner's statement of reasons for allowance:

The present claims are allowable for at least the following reason(s) over the closest references: Torto (WO 00/61074, US 6 762 242), Nitzsche (US 3 070 566), Bryan (US 4 657 959) and Chikuni (US 5 768 414).

Torto discloses a dental impression composition comprising a Si-alkenyl functional polysiloxane (POS(1)), a Si-H containing polysiloxane (POS(2)) and a surfactant of **polyalkylene oxide**. (col. 1, lines 7-38, col. 3, line 24 to col. 4, line 3, col. 5, line 61 to col. 6, line 10 and Examples) POS(1) can comprise siloxy units of formula 1.1 and siloxy units of formula 1.2. (col. 7, line 1 to col. 8, line 56)

However, Torto does not teach or fairly suggest the **polyether** where R<sup>1</sup> is a) C<sub>3</sub>H<sub>6</sub>SiR<sup>2</sup><sub>k</sub>(OR<sup>2</sup>)<sub>3-k</sub> with at least one R<sup>2</sup> is an alkenyl group or b) an alkenyl group set forth in Claims 1, 22, 25 and 34.

Nitzsche discloses a composition comprising a hydroxy-containing diorganopolysiloxane, a crosslinking agent and a catalyst. (col. 1, lines 55-61 and Examples) The amount of the phenyl group in the diorganopolysiloxane can be exemplified in Examples. The composition can be used in a dental impression composition, a building composition, etc. (col. 4, lines 26-31) Nitzsche is silent on the use of a polyether set forth in the present invention. Furthermore, Bryan teaches the use of a polyether in a silicone dental impression material. The motivation is to adjust the surface properties such as water contact angle of the dental impression material. (col. 1, lines 5-10, col. 5, line 56 to col. 6, line 38, Table 1) In light of the benefit mentioned, it would have been obvious to one of ordinary skill in the art at the time of the invention was made to incorporate Bryan's polyether into Nitzsche's composition. Furthermore, it is well known to add a polyethylene glycol in a building member composition. For example, Chikuni teaches a polyethylene glycol as a thixotropic agent in a building member composition, supra. Therefore, it would have been obvious to one of ordinary skill in the art at the time of the invention was made to incorporate the polyethylene glycol into Nitzsche's building member composition. However, none of Nitzsche, Bryan and Chikuni, taken alone or in combination, teaches or fairly suggests the

**polyether** where R<sup>1</sup> is a) C<sub>3</sub>H<sub>6</sub>SiR<sup>2</sup><sub>k</sub>(OR<sup>2</sup>)<sub>3-k</sub> with at least one R<sup>2</sup> is an alkenyl group or b) an alkenyl group set forth in Claims 1, 22, 25 and 34.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
